

The **accord** range offers **flexibility** and **reliability** designed for today's lifestyles.

## Accord range

- ☞ The Accord intruder alarm control panel has been designed specifically for use in residential properties.
- ☞ The Accord offers a competitively priced, simple to install, alarm system which can deter intruders and alert occupants via an audible alarm.

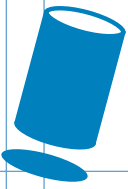

## The Accord provides:

- ☞ 3 setting options for user convenience - FULL set, PART set and NIGHT set
- ☞ Easy set option
- ☞ Up to 8 different user codes
- ☞ Up to 4 stylish LED keypads with back-lit keys
- ☞ Built-in panic facility
- ☞ 16 event alarm memory for recording system activation details
- ☞ User test facility

## Ademco Microtech...

- ☞ represents a resource of knowledge and experience that is second to none in the industry.
- ☞ is a marriage of two pioneering companies who, over the last 55 years, have regularly launched innovative products, many of which have gone on to become industry standards.
- ☞ manufactures a comprehensive range of intruder alarm systems and components, designed for UK and European applications.
- ☞ is committed to delivering a first class product to the customer. The company has achieved and maintained ISO 9001 accreditation.
- ☞ provides free product training and comprehensive technical support to professional installers.

simple, versatile, stylish, reliable

## ACCORD 8 ZONE CONTROL PANEL

The Accord intruder alarm panel adds security and peace of mind to a property. Combined with the stylish LED keypad, the Accord panel offers the flexibility to configure a system to suit the user's lifestyle.

The three setting options available allow the installer to programme the system to suit daily routines, allowing for pets where required.

- FULL set** - for when the property is empty, all detectors are active
- PART set** - for when the property is occupied, to secure specific areas whilst allowing movement within the building
- NIGHT set** - for when the occupants are in bed, to allow movement upstairs whilst securing remainder of the property

The three setting options are simply activated using a single entry on the keypad -

-  **1 = FULL set**
-  **2 = PART set**
-  **3 = NIGHT set**

### Additional Features

Accord panel

dimensions:  
195mm x 285mm x 90mm

LED keypad

dimensions: 119mm x 119mm

### Part Numbers

Accord control panel with LED keypad	2011-107
Accord LED keypad	2011-108

### Technical data

Mains supply	230v AC 50Hz nominal
Power supply	12v DC 750 mA
Bell output	12v 500 mA
Strobe output	12v 250 mA
Internal speaker driver	16 Ohms

The Accord panel does not provide confirmed alarm technology and police response can only be requested by an eyewitness who can confirm that a break-in has occurred.

In accordance with the policy on police response, adopted by the Association of Chief Police Officers in 2001 and implemented alongside the British Standard Institute's DD243:2002 which specifies intruder alarm installation criteria, the Ademco Microtech Accord xpC and Accord xpC-RF control panels can provide confirmed alarm technology. Where installed, the correct registration and use of this technology will qualify premises for police response to activations.
